

Judging

November 9, 2019

Ana Luisa Trejos
Judge Advisor

Judging Process

Judging Process

- Teams must compete in all three judging areas to be eligible for any award.
- Queuing is provided but we are not responsible.
- Make sure you check the general schedule that is posted

Judging Sessions

- Only one non-team member in the judging rooms
 - Must not speak or interfere in any way
 - Must not stand behind the judges
 - Is allowed to record video in the robot design and project judging rooms

Robot Design

- Teams present a Robot Design Executive Summary (RDES) in the first 4 minutes.
- Bring a laptop or diagrams so that the team can show the software program.

Project and Core

- Core values poster is not required.
- Coaches must not interfere with the team's setup of their presentation.
- We can assist if the team is having trouble.

Awards

- 6 awards this year:
 - Robot performance
 - Robot design
 - Core values
 - Project
 - Champions
 - Judges award

Advancement Policy

- Two teams will advance
- The criteria for advancement has been specified by FIRST
- The overall ranking is determined based on adding up the ranks in the three different judging categories plus the rank in robot performance.

Call Backs

- We have your match schedule so we will plan accordingly
- In some cases you may only have 5 minutes in between – prepare accordingly
- If you feel that you cannot do both, speak to someone about rescheduling the call back. The matches take priority.
